

Medical Insurance Patients

Our practice is non-participating with all medical insurance plans. This means that you may have no coverage or limits coverage for any procedures performed by doctors at Chesapeake Oral Surgery & Dental Implants. Your signature on this document indicates that you understand all of the following.

Payment is due directly from you. We do not accept payment from the insurance company for medical claims.

Prior Authorization may be obtained before treatment is started. This is an approval for the treatment only and is NOT a payment authorization.

We will provide the codes for planned procedures, which you can use to contact your insurance about possible benefit information. You will need to let them know the surgeon is “out of network”, as that may make a difference in coverage.

We will submit a post-treatment claim and operative reports to your insurance company, detailing what was done, for your possible reimbursement.

If your surgery is done at a hospital or other facility it is POSSIBLE that insurance will not pay the facility or anesthesiologist or any associated claims when an out-of- network surgeon is used.

Your insurance plan may not pay anything toward your surgery.

If you have any questions or concerns about this information, please discuss them prior to signing this form. There are no exceptions to this policy.
