

Telehealth Appointment Check-List

- Submitted our New Patient Information forms
- Send an image of your:
 - Photo ID
 - Insurance card
 - Referral and x-ray (if needed) from your general dentist
- Download the Zoom application
- Sign and return the **Patient Acknowledgement Telehealth Consult Consent**

Once we receive all of your information via email we will send you an email with your unique Zoom meeting ID and Password.

Before the day of your Zoom Telehealth Consultation please:

- Download and familiarize yourself the Zoom application on your mobile device, or go to www.zoom.us from your laptop/computer. You must use a device with a camera, microphone, and audio capabilities
- Please take the time to visit the following link and watch this short video of how evaluation photos need to be taken during your telehealth consult
 - [How to take Dental Evaluation Photos-Video](#)

Your virtual consultation with Dr. Spector will be a secure live video chat utilizing Zoom. The meeting ID and password are unique to ensure your privacy is protected.

On the day of your Zoom Telehealth Consultation please:

- Have a family member present during your consult to assist you with any photos that may need to be taken
- Have two spoons and a flashlight (**this needs to be a flashlight not attached to your mobile device**), these will be necessary for Dr. Spector to properly evaluate the patient
- Both the patient and family member should take care to properly wash your hands just prior to the consult as you will be touching your mouth
- Be sure to be in a well-lit room for you appointment, with lighting in front of you- not behind you as this will impair Dr. Spector's view and he may not be able to properly access
- Click the link to join the meeting for your Zoom meeting that was sent to you via email, or using the provided meeting ID and password from the Zoom app directly
